GitHub: Toothless1306 | Portfolio: <https://toothless1306.github.io/Narrendran-Poorangavel>

Professional Summary

Full Stack Developer with proven experience building enterprise-scale ERP modules and CRM automation solutions. Proficient in the MERN stack, with a strong focus on writing clean, scalable code that drives business efficiency. Led the end-to-end development of three integrated ERP modules—from database design and RESTful APIs to responsive React frontends. Adept at translating complex business requirements into reliable, user-friendly solutions. Eager to contribute technical expertise and problem-solving skills to impactful projects in a dynamic team environment.

Experience

Associate Full Stack Developer | ERP Developer

GWAYERP Tech Solutions

Dec 2024 - Oct 2025 • Chennai, India

- Led the end-to-end development of 3 integrated ERP modules, including database design, RESTful API development, and responsive React frontend implementation
- Architected a modular, scalable system supporting seamless future integrations and third-party connections
- Optimized frontend and backend performance, significantly improving system responsiveness and overall user experience
- Built a shift management ERP module for employee scheduling, attendance tracking, and automated workflow optimization
- Collaborated with cross-functional teams in an Agile environment to deliver client-focused solutions on schedule

Zoho Developer Intern

Elite Tech Park

Mar 2024 - Jul 2024 • Coimbatore, India

- Automated manual data entry and lead qualification processes using Zoho CRM and Deluge scripting
- Implemented custom business logic to streamline CRM workflows, reducing manual intervention and improving efficiency
- Designed and deployed business process automation solutions using Zoho Creator and CRM tools
- Collaborated with senior developers to optimize existing automation workflows
