PROFESSIONAL SUMMARY

Proactive Zoho & Full-Stack Developer with hands-on expertise in **Zoho CRM customization**, **Deluge scripting**, **Zoho Creator**, and **workflow automations** alongside building **enterprise-grade ERP solutions**. Proven track record in automating **lead qualification pipelines**, implementing **custom business logic**, **REST API integrations**, and **scalable database schemas**. Quick learner equipped to rapidly configure, deploy, and maintain robust business solutions across the **Zoho ecosystem**.

TECHNICAL EXPERTISE

Zoho Ecosystem:	Zoho CRM, Zoho Creator, Deluge Scripting, Custom Functions, Workflow Automation, Webhooks & REST APIs
Programming & Web:	JavaScript (ES6+), TypeScript, Deluge, HTML5, CSS3, Java (Basics), Python (Basics)
Full Stack & ERP:	React.js, Redux, Redux Saga, MUI, NestJS, REST APIs, JWT Auth, Inventory & Order Workflows
Databases & Tools:	MongoDB, Mongoose, MySQL / PL-SQL, Git/GitHub, Postman, Axios
Languages:	Tamil (Native), English (Professional Working), Hindi (Conversational)

WORK EXPERIENCE

Zoho Developer Intern — Elite Tech Park

Mar 2024 – Jul 2024 | Coimbatore, India

- Automated end-to-end data entry and lead qualification pipelines utilizing **Zoho CRM** and custom **Deluge scripting**, reducing manual effort significantly.
- Engineered custom business logic, validation rules, and automated notifications to streamline CRM workflows and improve operational efficiency.
- Designed, tested, and deployed business process automation modules using **Zoho Creator** and CRM toolsets.
- Collaborated with senior developers to troubleshoot, optimize, and document reusable automation routines and integration workflows.

Junior Developer — GWAYERP Tech Solutions

Dec 2024 – Oct 2025 | Chennai, India

- Architected and delivered end-to-end ERP modules (Sales Shipment, Services, Sales Return, Transit) integrating React, TypeScript, Redux Saga, NestJS, and REST APIs.
- Implemented Sales Shipment validation workflows against Sales Orders, preventing excess shipments while synchronizing physical, committed, and in-transit stocks.
- Re-engineered inventory tracking (Physical, Committed, In-Transit, Quantity-on-Hand), updating MongoDB schemas and backend services.
- Engineered an enterprise Audit Trail with React, Redux Saga, NestJS, and MongoDB schemas for tracking user and module modifications.
- Built a reusable TypeScript utility for automated field-level change detection by comparing database records with incoming update payloads.

FEATURED PROJECT

Modular ERP & HRMS System — Personal Implementation

React.js · TypeScript · Redux Saga · NestJS · REST APIs · MongoDB · MUI

- Developed an integrated business platform covering employee onboarding, leave/attendance tracking, payroll, inventory, customer management, and role-based access control (RBAC).
- Implemented clean RESTful API architectures, standardized list/detail/form views with dynamic sorting and pagination, and secure JWT authentication.

EDUCATION

B.Tech – Information Technology

Karpagam Institute of Technology | 2020 – 2024

CGPA: 7.49 / 10 | Coimbatore, India

Coursework: Data Structures & Algorithms · Web Development · Database Management Systems (DBMS)

CERTIFICATIONS & COMPETENCIES

- MongoDB Essentials - A Complete MongoDB Guide** – Infosys (Nov 2022)
- Node.js Certification** – Infosys (Nov 2022)
- Data Science with Python** – FITA (Apr 2026)
- Core:** Business Process Logic, API Integration, Problem Solving, Agile Development, Team Collaboration
